
BOUREMA DIARRA

DOCTORAL CANDIDATE

PROFESSIONAL SUMMARY

Research professional with solid history of delivering thorough and insightful analyses in various research projects. Known for collaborative approach, adaptability to changing project needs, and results-driven mindset. Skilled in data interpretation, report writing, and utilizing advanced research methodologies to drive outcomes.

WEBSITES, PORTFOLIOS, PROFILES

- [linkedin.com/in/bourema-diarra-8623b2220](https://www.linkedin.com/in/bourema-diarra-8623b2220)
- Github: Bourema-D/Bourem_Diarra

SKILLS

Technical Skills

Python (Pandas, Numpy, Jupyter)
SQL (currently developing)
SPSS (descriptive and inferential statistics)
Data cleaning and processing
Data analysis and interpretation
Statistical analysis
Quantitative research methods
Environmental data analysis
GIS analysis and spatial data processing
Data vizualisation
Microsoft Excel & Microsoft Office Suite
Data organization and management
Web data extraction (Web Scraping)

Professional Skills

Analytical thinking
Critical thinking and problem-solving
Attention to detail
Communication and presentation
Report writing
Research planning and project management
Data-driven decision-making
Organization and time management
Collaboration and teamwork
Adaptability and continuous learning
Independent and collaborative research
Literature review and evidence synthesis
Scientific and technical writing

WORK HISTORY

PhD Researcher, 09/2023 - Current

Eötvös Loránd University – Budapest

- Conducted doctoral research in environmental sciences emphasizing human–environment interactions to advance understanding of ecological dynamics
- Applied quantitative and qualitative research methods to analyze environmental data, informing research findings and contributing to project goals
- Reviewed and synthesized scientific literature to inform research design and support publication efforts, enhancing the quality of academic contributions

- Preparing academic manuscripts and conference materials

Research Intern, 01/2024 - 07/2024

United Nations Framework Convention on Climate Change (UNFCCC) – Remote

- Conducted research and documented findings for capacity-building negotiations at SBI 60 (Bonn) to inform decision-making
- Prepared background documents and analytical reports to support UNFCCC processes and enhance stakeholder engagement
- Organized and developed academic content for the 7th UNFCCC Capacity-Building Talk to facilitate knowledge sharing
- Supported research and documentation for capacity-building negotiations at SBI 60 (Bonn)

Teacher of Geography and History, 11/2021 - 06/2023

High School Ramata Toure – Bamako

- Delivered structured lectures in geography and environmental topics, fostering student engagement and understanding
- Designed assessments and evaluated student performance to inform instructional strategies
- Developed pedagogical materials supporting environmental education, enhancing curriculum delivery

Research Intern, 01/2022 - 07/2022

United Nations Convention to Combat Desertification (UNCCD) – Remote

- Conducted desk research on land degradation and desertification, informing capacity-building initiatives
- Collected and analyzed research content, preparing it for publication on the Capacity Building Marketplace to enhance resource accessibility
- Designed and implemented an independent outreach research project: Children vs UNCCD
- Designed and implemented independent outreach research project on Children vs UNCCD, raising awareness of children's issues in relation to land degradation

EDUCATION

PhD Candidate: Environmental Sciences, Expected in 08/2027

Eötvös Loránd University - Budapest, Hungary

Relevant Coursework: Water, society, economy, Environmental Science and Policy Related International Cooperation, Geographies and Geopolitics of Knowledge, Groundwater Flow in Drainage Basins, Environment and Society, Advanced Data Analysis and Visualization by R Programming, How to write Scientific Papers

MSc: Ecology and Nature Protection, 06/2021

Perm State National Research University - Perm, Russia

- Relevant Coursework: Theoretical Biogeography, Environmental Management, Environmental Audit, Data Analysis
- GPA: 4.61/5

Professional Bachelor: Teaching History and Geography, 09/2015

Normal Higher School of Bamako - Bamako, Mali

Bachelor: Geography and Planning, 09/2013

University of Social Sciences and Management of Bamako - Bamako, Mali
